It is also allowed to link to the download page from websites and communities. Simply upload your file and share the link. We have no file size limit. Unfortunately, we can't make that part free. Any file in any format can be uploaded and downloaded for free. Alternatively you can choose to share your download links on blogs, forums and social networking sites. Our service is completely free for everyone. You can give this download link to your friends by mail or instant messenger. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Just upload the file you want to share with your friends and we send you a download link to your file. No account or credit card is required to get started. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files can be downloaded from any computer from our high speed servers. You can upload any type of file (movies, music, documents, images, zip files and more). Keep your files private, or send your download links only to friends or family. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. So try our free and simple filehosting service now. Using file, you avoid storing the file you're sending in your cloud storage or mail server. So try our free and simple filehosting service now. Using file, you decide who you want to share your files with. If only we could, we surely would! On the other hand, using file can actually save you money. File is free to use with no gotchas and no hidden fees. You don't need any special software installed to be able to download your files. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device.
